# ABOUT US

Our company was established in Istanbul in 2022 with the title of Boğaziçi Accessories Motor Vehicles Ltd. Co. as a group company of Avrasya Carmats Automotive Ltd. Co. in order to meet the increasing demand in the motorcycle industry and to produce value-added products that will reduce imports in the sector. Our companies founded with this vision, have directed different experiences and knowledge towards a common goal. Thus, they have gained the ability to act on more agile, dynamic, strong and solid foundations.

Boğaziçi Aksesuar aims to meet the needs in the sector with its approach that prioritizes advanced engineering, R&D and P&D solutions, market studies, benchmarking, high quality and customer proximity.

Right after our company was founded, it produced different volumes of top cases and protective knee guards for motorcycle riders and offered these products to its customers. The development process for motorcycle helmets continues and these protective equipments will be offered to our customers in a short time. In the next years, we aim to increase our production diversity and capacity to meet the sectoral needs, and to increase our share and position in the market with an environmentalist approach.

## **OUR VISION**

is to be a reliable and most preferred global company by producing high quality products and services that are sensitive to the environment and people.

## **OUR MISSION**

is to consider the limited world resources and sustainability in every product we produce and will produce, and to touch people with innovative and competitive products.
